Vanderbilt Medical Center
New Year Baby: Gabriel

[Carole Houser, RN](#)

January 1, 2002

There may be nothing more promising and hopeful than a new life. The first baby of the New Year in Nashville was born to new residents. Robert and Louise Sipos have lived in Bellevue only 6 months, since Robert's company transferred him from Milwaukee.

They've been so busy settling in they didn't even think about the possibility that their son might arrive in time to be the first baby of the year. But Gabriel decided to wait out a long delivery, 48 hours worth of labor, until he arrived at 12:55am. Gabriel weighed in at 7 pounds, six ounces, 20 inches long. "I would like for him to be a positive influence on the world in whatever small minute way I'd like for him to grow up to be a healthy adult mentally and physically, that's all really, I don't need a doctor or a lawyer, just a happy, happy positive

person," says Louise Sipos.

Mom is originally from England and dad's family is Hungarian so Gabriel already has an international influence in his life, Vanderbilt made sure he starts off right with a new car seat, and other baby supplies for being the first of 2002.
